EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Wigmore (Reg# 40,447) on 2 February 2007.

The application has been amended as follows:

Please replace line 1 of claim 37 with the following:

Claim 37. A machine-readable physical medium having program code

Please replace line 1 of claim 37 with the following:

Claim 50. A machine-readable physical medium having program code

Please replace line 1 of claim 37 with the following:

Claim 56. A machine-readable physical medium having program code

Allowable Subject Matter

Claims 1, 3-4, 6-14, 16-40, 42-50, and 52-57 allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art, Gleichauf et al US Patent No. 6,301,668, Steinke's "Firewalls" publication, and Olden et al US Patent No. 6,460,141 teach methods of detecting and preventing computer network security breaches. However, the cited prior art fails to teach or suggest designating a relative alert condition value to each data signature based on each data signature itself and contextual information associated with the data signature where each alert condition value comprises a rank value that is unique to each combination of data signature and contextual information associated with a particular data signature. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
